Let's Start!

Let's review!

Learning Outcome

Describe ways of solving problems and getting things done in social contexts.

Ask your partner:

- How long have you been learning English?
- What are the most difficult things to learn?

Can Do Statements

- I can write about things that happened or have happened.
- I can write about things that have happened, or things that have been happening.
- I can talk about my attitudes toward an action.

Let's Explore!

A soft voice **whispers*** in your ear!

* When you "whisper" you use a very low breathy voice.

Instructions: Read the text aloud.

Would you like to go to bed while a soothing voice whispered a lesson into your sleeping ears?

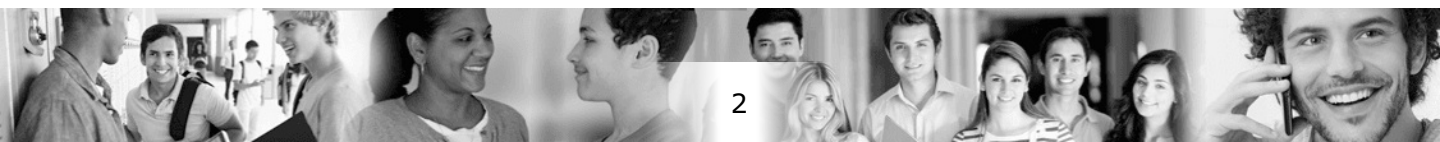

It has come to light that people all over the world have been trying out the new "learn while you sleep" method to study all sorts of subjects. English appears to be one of them. Specialists have run a number of experiments.

The fact the participants in the study have been learning three times more than they can during the day can't be ignored. Learning in their sleep has helped them to achieve far more than expected!

Language learners using this method have been able to do it in an amazing speed. These students haven't been spending time staring into space in the evening when they should be studying, they have been out enjoying themselves! Unfortunately, sleep learning tends to help you only remember things that you've already learned while awake.

In the study, specialists experimented by teaching people English over the radio. Students did ten lessons every two weeks. Before they went to sleep, they completed one lesson in English grammar and vocabulary. Then, peaceful music put them to sleep. A quiet voice whispered the lesson over again while they were slumbering.

Learning while you sleep may sound illogical, but, it seems to work. So if learning English is at the top of your list, there may come a day when you may find yourself learning it while in deep repose.

Let's Practice!

A new way to learn!

Instructions: Match the sentences on the left with their missing parts on the right.

- | | |
|--|---|
| 1) Would you like | a) achieve far more than expected! |
| 2) Learning in their sleep has helped them to... | b) help you only remember things that you've already learned while awake. |
| 3) These students haven't been spending time... | c) to go to bed? |
| 4) Unfortunately, sleep learning tends to... | d) staring into space in the evening. |

Let's Practice!

Can we really learn while we sleep?

Instructions: Select all the correct options.

Which of these sentences are correct?

- Would you like to go to bed while a soothing voice have whispered a lesson into your sleeping ears?
- Specialists have run a number of experiments.
- Learning in their sleep has helped them to achieve far more than expected!
- In the study, specialists have experimented by teaching people English over the radio.
- Students did ten lessons every two weeks.
- Before they went to sleep, they have completed one lesson in English grammar and vocabulary.
- Then, peaceful music put them to sleep.
- A quiet voice have whispered the lesson over again while they were slumbering.

Extension Activity

Talk about your English learning experience so far.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Talk with a partner and discuss when you started learning English and what you learned then.
- Then discuss what you have learned since then.
- Finally, talk about what you have been learning this year.
- Discuss what you have found easier and more difficult when learning.

Self-Assessment

Yes

No

I discuss learning English with a partner.

☐
☐

I use the Past Simple tense to describe past learning.

☐
☐

I use the Present Perfect tense to describe what I've learned since then.

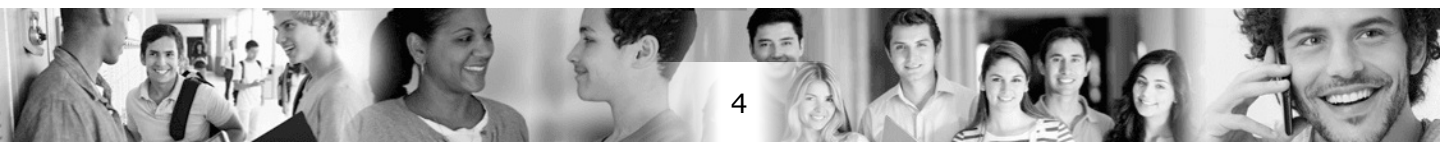

☐
☐

I use the Present Perfect Continuous tense to describe what I have been learning recently.

☐
☐

Target Words

- **to appear** (verb): to give the impression
e.g. English appears to be one of them.
- **illogical** (adjective): irrational
e.g. Learning while you sleep may sound illogical but it seems to work.
- **to stare into space** (verb): focusing on nothing
e.g. These students haven't been spending time staring into space in the evening when they should be studying.
- **to ignore** (verb): to pay no attention to
e.g. The fact the participants in the study have been learning three times more than they can during the day can't be ignored.
- **to come to light** (expression): to become known or to be discovered
e.g. It has come to light that people all over the world have been trying out the new "learn while you sleep".
- **at the top of my list** (expression): first of the things that I want to do
e.g. So if learning English is at the top of your list, there may come a day when you may find yourself learning it while in deep repose.

Learning Points

Present Perfect vs. The Simple Past Tense

You use the **Present Perfect** for actions which started in the past and are still happening now OR for finished actions which have a connection to the present.

You use the **Simple Past** for past events or actions which have no connection to the present.

Rule	Example	Explanation
The Simple Past is used when the time period HAS finished.	<i>In the study, specialists experimented by teaching people English over the radio.</i> <i>Students did ten lessons every two weeks.</i>	when the study was done
The Present Perfect is used when the time period has NOT finished.	<i>Learning in their sleep has helped them to achieve far more than expected!</i>	since they started studying this way

Examples:

- *A quiet voice whispered the lesson over again while they were slumbering.*
- *Unfortunately, sleep learning tends to help you only remember things that you've already learned while awake.*
- *Before they went to sleep, they completed one lesson in English grammar and vocabulary. Then, peaceful music put them to sleep.*

Learning Points

Present Perfect Continuous vs. Present Perfect

You use the **Present Perfect tense** to talk about a past action or an action that began in the past that is connected to the present in some way.

You can use the **Present Perfect tense** to talk about experiences. When you use the Present Perfect tense, you think about the past and present together. There is some connection between what happened in the past and now. To emphasize the **result** of the action, use the simple form.

- *What happened to her?*

You use **Present Perfect Continuous tense** to describe:

- a single activity that lasts a long time
- an action that is repeated over a long period of time

These continue up to the present. You can use the **Present Perfect Continuous tense** when a long activity has just stopped.

To emphasize the **action**, use the continuous form.

- *What have the other people in the cafe been doing?*

Sentence	Meaning
<i>Specialists have run a number of experiments.</i>	at an unspecified time in the past they ran them
<i>The fact the participants in the study have been learning three times more than they can during the day can't be ignored.</i>	they have happened for a while now

Examples:

- *Language learners using this method have been able to do it at an amazing speed.*
- *These students haven't been spending time staring into space in the evening when they should be studying, they have been out enjoying themselves!*
- *It has come to light that people all over the world have been trying out the new "learn while you sleep" method to study all sorts of subjects.*
